## Model Trust Framework System Rules

0

June 30, 2013 by admin

The MIT Model Trust Framework System Rules for Personal Data have been published under creative commons and are freely accessible at the [MIT Human Dynamics Lab GitHub repository](#).

For more background on Trust Framework System Rules, please see:

- [The initial draft version](#) of the MIT Trust Framework System Rules for personal data
- The work of the [Identity Ecosystem Steering Group](#) implementing the National Strategy for Trusted Identities in Cyberspace
- The [Draft Model User Centric Legal Agreement for Trust Framework and Data Store](#) written by Scott David and published by the [ID Cubed](#), a non-profit led by [John Clippinger](#) and co-founded by [Sandy Pentland](#)
- The [Personal Data Ecosystem Consortium](#), led by [Kaliya Hamlin](#)
